An HHC Municipal Labor Subcommittee Project

We OPPOSE Governor David Paterson's 2009-2010 Proposed Deficit Reduction Plan

We the undersigned are opposed to Governor David Paterson's Deficit Reduction Plan, which if approved by the New York State Legislature would:

- Result in the NYC Health and Hospitals Corporation (HHC) losing over $63 million in cuts on an annualized basis to critical programs that serve over 1.3 million New Yorkers.
- The cuts will result in the loss of additional matching funds of $24 million.
- If these cuts happen, resources that HHC can not afford to lose will mean the loss of vital patient services, including community clinics.
- Cuts in funds mean cuts in jobs. We can't afford to lose jobs.

Therefore, we urge you to oppose these draconian reductions and to take the necessary actions to ensure that the New York State Legislature does not enact these budget reductions.
