

# Green JOBS

## Training Program

This is a grant-funded training program where members receive free, hands-on instruction in areas of need within the green economy and energy sector.

These courses and more will prepare members for certifications and licenses offered and recognized by the Building Performance Institute, Urban Green Council and Association of Energy Engineers.

### Training Courses Include:

- Energy Auditing
- Multifamily & Commercial Building Analyst
- Carbon Accounting
- LEED Green Associate
- Energy Benchmarking
- Construction Management
